Hardware Installation

Please follow the steps below to install the RocketAIC 7505HW into a motherboard with a compatible PCIe slot.

1. Disconnect all power and powered devices from your system. Open the motherboard chassis cover.
2. Insert the RocketAIC 7505HW into one of the system's open PCIe 3.0/4.0/5.0 x16 slots.
3. Once the RocketAIC 7505HW is fully seated affix the included screw to the bracket.
4. Reassemble the chassis cover and reconnect the system to the power supply.

Note: *If you encounter any problems with damaged parts (e.g. fans, screws, heat sinks, heat dissipation silicone, etc.) during use, you need to contact our customer support team for professional help and guidance to avoid unexpected situations. You will be responsible for all the consequences of solving the problem by yourself.*
