RocketStor 5411D

USB 3.0 Drive Dock + 7 Expansion Ports (USB I/O & Charging, Ethernet, Audio, SD Reader)

The Industry's Most Versatile USB 3.0 I/O Connectivity Solution!

USB 3.0 Drive Dock + 7 Expansion Ports!

The RocketStor 5411D is the industry's most versatile USB 3.0 connectivity solution for Mac and PC platforms. It combines the convenience, speed and flexibility of a multi-port USB 3.0 controller, USB-charger, card-reader, SATA drive dock and universal charging station into a single compact device!

All-In-One USB 3.0 I/O Solution

The RocketStor 5411D is more than just a simple USB drive dock - it is a complete, USB 3.0 I/O connectivity solution! Manage all of your USB peripherals, SD memory cards, audio devices and storage from a single, compact docking station!

Each of three USB 3.0 ports provide two functions: a universal USB charging station and a single connection point for all of your USB peripherals including printers, scanners, headsets and input devices.

The built-in audio jacks support headsets and recording devices, and an integrated Ethernet port allows you to access USB devices over a local network connection and supports

Easily access SATA drives of any generation, size and performance level!

An integrated, modular drive bay supports any industry standard 3.5" and 2.5" SATA drive, including today's fastest 6Gb/s SSD's and high-capacity 8TB hard drives.

The RocketStor 5411D supports any industry standard SATA SSD and hard drive! It fully compatible with any performance level; from SATA 1 to SATA III, supports 3.5" and 2.5" form factors, and can handle disks of any capacity including the latest 6TB and 8TB models.

Versatile, Stand-Alone USB charging station

The RocketStor 5411D is capable of charging up to 3 USB devices, such a Smart Phones, Tablets, cameras and media players, simultaneously!
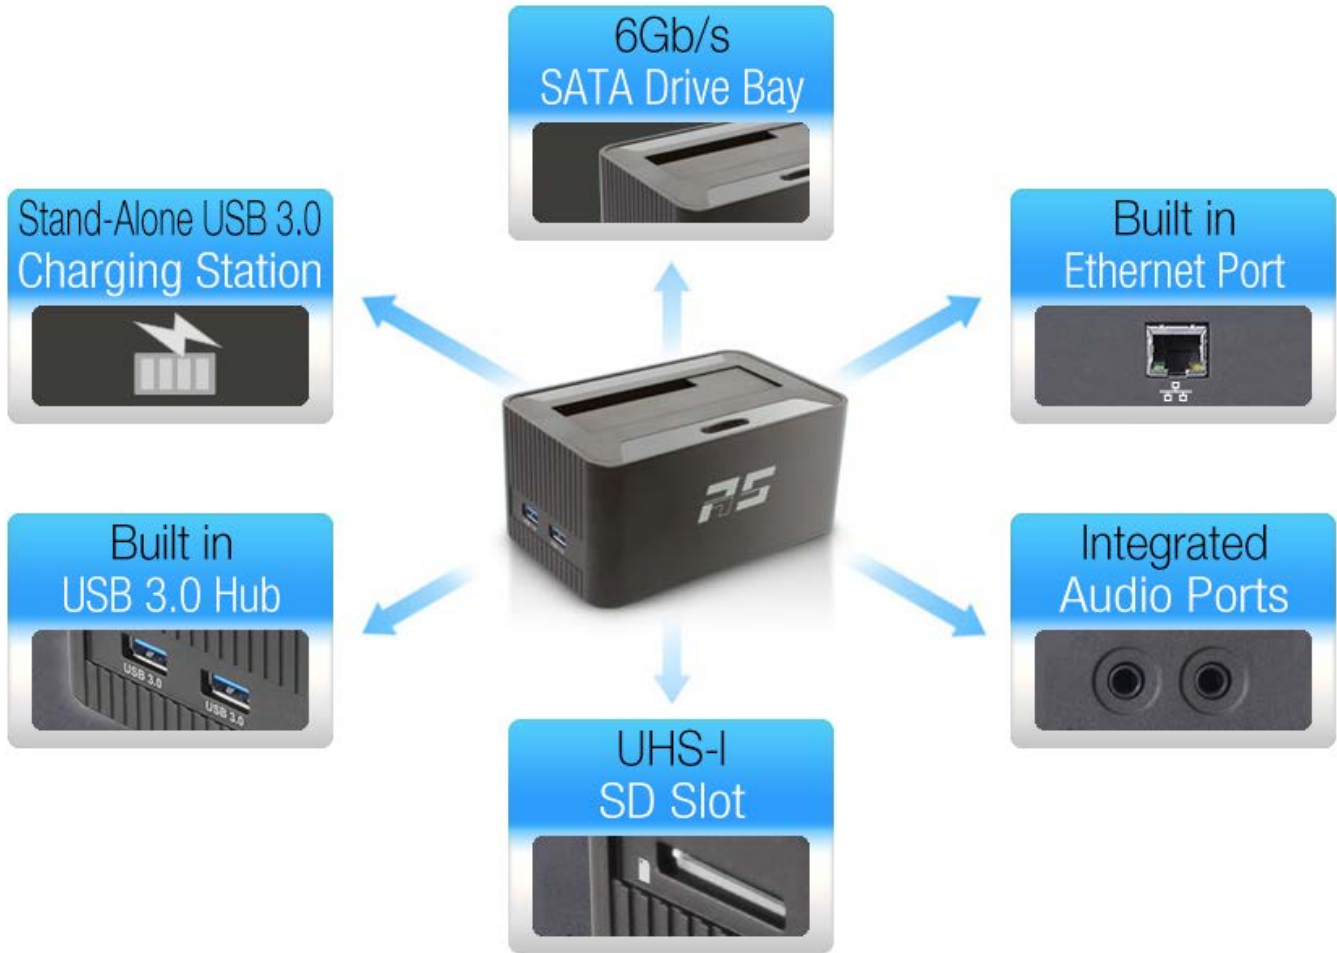

In addition, the RocketStor 5411D can be used as a standalone charging station – simply leave the unit's power cable plugged and utilize the dock as an all-purpose charging station!

Feature Highlights

- Dedicated 5Gb/s USB 3.0 Connectivity
- 6Gb/s SATA bay supports any 3.5"/2.5" SATA HDD and SSD
- Three USB 3.0 device ports with USB charging support
- UHS-I (Ultra High Speed) SD card socket
- Headphone Output Jack & Audio Input Jack
- Gigabyte Ethernet connectivity

Technologies, Inc.

The Industry's Most Versatile USB 3.0 I/O Connectivity Solution!

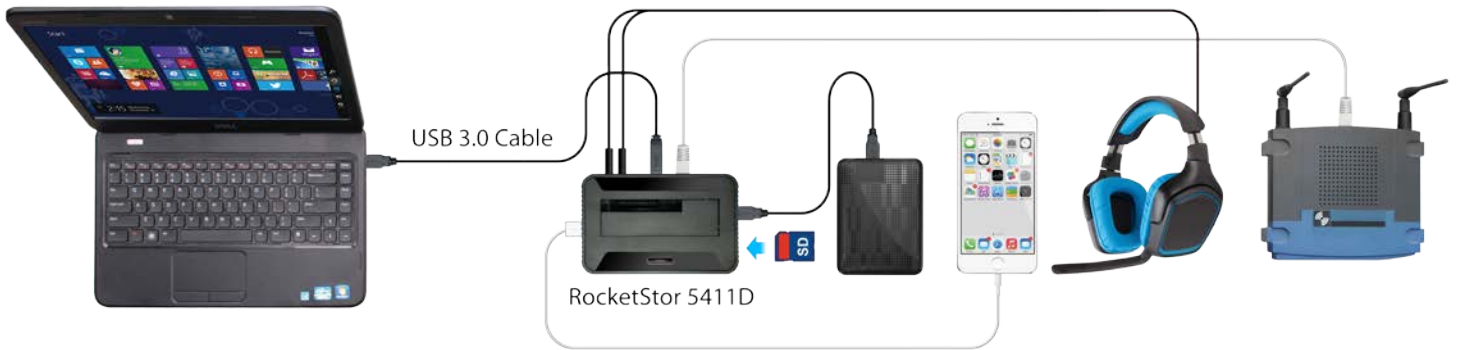

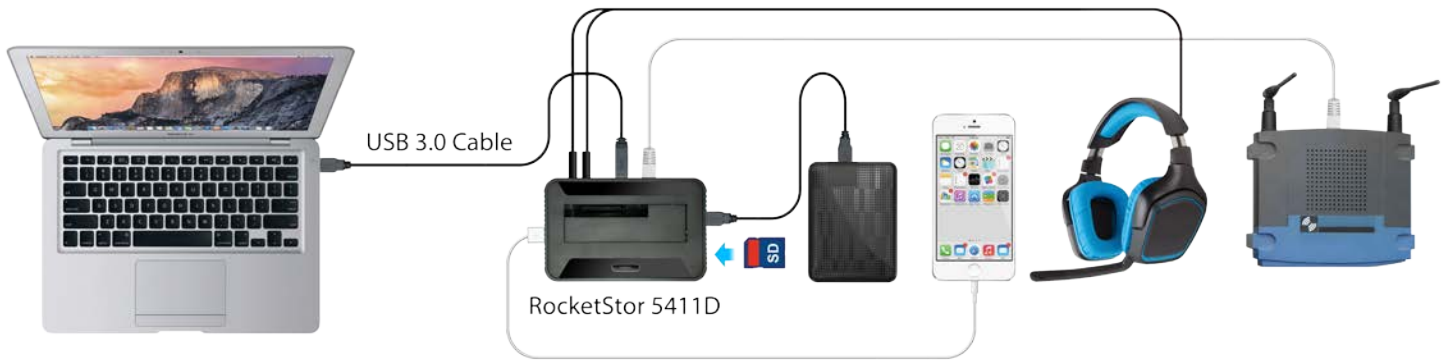

Ultra Energy Efficient!

Unlike many USB docking stations, hubs and drive docks, the RocketStor 5411D is compatible with Mac OSX and Windows 8/7 power saving modes. Hard disks inserted into the drive bay will enter a low-power state when the operating system is in sleep or standby modes.
