Hardware Installation

Please follow the steps below to install the RocketAIC 7749M2W into a motherboard with a compatible PCIe slot.

1. Disconnect all power and powered devices from your system.
Open the motherboard chassis cover.
2. Insert the RocketAIC 7749M2W into an available PCIe slot.
3. Once the RocketAIC 7749M2W is fully seated affix the included screw to the bracket.
4. Reassemble the chassis cover and reconnect the system to the power supply.
5. When finished, turn on the power to the system.

Note: In case of insufficient power supply to the motherboard PCIe slot, connect the 6-pin PCIe power cable to the external power connector on the right side of the RocketAIC 7749M2W before turning on the power to the system.

Connect 6 pin PCIe power cable
