## Hardware Installation

Please follow the steps below to install the RocketAIC 7540HW into a motherboard with a compatible PCIe slot.

1. Disconnect all power and powered devices from your system.  
Open the motherboard chassis cover.
2. Insert the RocketAIC 7540HW into an available PCIe slot.
3. Once the RocketAIC 7540HW is fully seated affix the included screw to the bracket.
4. Reassemble the chassis cover and reconnect the system to the power supply.

**Note:** In case the motherboard PCIe slot has insufficient power, connect the 6-pin PCIe power cable to the external power connector on the right side of the RocketAIC 7540HW before turning on the system's power.

## **Resources**

A variety of manuals, guides and FAQs are available for RocketAIC 7540HW series NVMe drives.

In addition, we recommend visiting the Software Downloads webpage for the latest drivers, management interfaces, and installation guides.
